attempts to start flying without sufficient drop, it glides to the ground and must mount to a higher point than it can launch again, the anchor points for the web bridge give way and drop the web into the chasm below, and creatures on the bridge immediately fall 50 feet and take appropriate falling damage. For you see, I already have an Anra of my own." At this, he pulled the mask from the swan maiden beside him and revealed the girl from the Demon and Harlot. A peluda can't attack with a severed tail and thereafter automatically suffers 2d6 points of bleed damage each round until it dies. However, anyone who attempts to leave via this chamber with the prisoner from area W15 in tow while the piscodaemon remains is automatically attacked— regardless of how many times Vordakai's name is invoked. While the roc's eggs are unfertilized, the PCs may be seeking them for a quest (see the inside back cover). Unlike dryads, hlodeuwedds have no dependency on the plants around them; they can willingly leave their chosen moor to visit their fey kin, scout their domain in owl form, or even mingle with frontier communities, changing shape to appear elven or human. GMs seeking to expand their encounters might look to Bestiary entries in coming volumes of the Kingmaker Adventure Path for more beasts and denizens of that deadly realm. Iobaria in the present has pockets of civilization all tightly tied to trade, money, and what little control or influence some warlords or former nobles can cobble together through gold or might. By the end of the adventure, Narland has expanded east to the Tors, stretching from the Little Sellen's banks to the south up to the Shrike to the north. Who pays homage to cyclopes varies wildly; their cults take wildly different shapes, from the beast tribes of Iobaria to the mystery cults of Idlydos. Still, deals and treaties flow fast and furious as Koffar Ivad Rhukov plans to wrest power from Kridorn and Orlov and rule Iobaria himself, and he promises rewards undreamed to his fellow nobles... though few know if his word can be trusted. This path takes a circuitous route, winding back and forth over a length of 8 miles through the tors until finally opening upon area W. It was as though I had returned to my father's table at last. A third popular tale says Lostlarn was the stronghold of a robber lord who died horribly, along with all of his men, when some booty they seized turned out to be guarded by a crawling, flesh-eating growth that killed them and turned them into mindless, shambling plant-beasts. Completion: Learn of Tomin's fate and report the discovery to Edrist. Otherwise, the elemental fights to the death. ABILITIES STRENGTH 14 DEXTERITY 16 CONSTITUTION 15 INTELLIGENCE 10 WISDOM 14 CHARISMA OFFENSE Melee +1 Large bastard sword +11/+6 (2d8+7/19-20) Ranged mwk longbow +9/+3 (1d8/x3) Base Atk +7; CMB +11; CMD 24 Special Abilities damage reduction 1/- fast movement, improved uncanny dodge, knockback, rage 25 rds/day, renewed vigor, strength surge, trap sense +2 6 SKILLS Handle Animal +8, Heal +12, Knowledge (geography) +10, Knowledge (nature) +10, Perception +12, Stealth +13, Survival +12 OFFENSE Melee +1 greataxe +10/+5 (1d12+4/x3) Ranged +1 heavy crossbow +8 (1d10+1/19-20) Base Atk +7; CMB +9; CMD 22 (26 vs. Many guess this magic may have something to do with the frequent plagues. It records his career as a ranger in the company of Maegar Varn and includes a description of several skirmishes that occurred between the colonists and a tribe of barbaric centaurs that inhabit the hills east of Varnhold. The Ghost Stone.....Page 18 V. This white crystal gleams with a subdued moonlike glow. Offense Speed 30 ft., swim 30 ft. Unfortunately for Willas, he mistranslated the ancient tablet—and what he In the age before Earthfall, the fortunes of Golarion were forged by vast empires like Azlant and Thassilon. This small church of Erastil was established by Maegar Varn's companion, the cleric Caspar Morgarion. Ceilings within the tomb are arched, and are 10 feet high at the edges, rising to 15 feet high at the center of passages and 20 feet high in rooms unless otherwise noted. L22. All of which puts Jamandi in a rough situation—she wants desperately to learn what has become of Varnhold, but cannot act directly without triggering a conflict. If he does, he is slain but can be restored to life normally. Their bodies are the forms huddled around the central pool, eviscerated such that their entrails are laid out in intricate patterns sacred to Vordakai's daemonic overlords. Though males are allowed among their number, they represent a much smaller portion. Once summoned, the piscodaemon remains on guard at this post for 24 hours before returning to Abaddon. Freedom of movement restores Xamanthe's mobility, but only as long as the effect lasts—giving her the ring of freedom of movement from area W8 is another way to rescue her. Spriggan Skills (Ex) Climb, Disable Device, Perception, Sleight of Hand, and Stealth are class skills for spriggans. Or the one crossing the street with a man on each arm?" I joined him at the mouth of the alley. Guard Chamber.....Page 45 W16. This is the power base for Koffar Rjul, a shrewd and ruthless man whose family's control of Veka's smithies (where all metal weapons and materials in the area are forged) led to his control of the local military, making him the most powerful man around the Nysyrd. The wagon and loading dock hold sealed barrels of the stout—still good—and another dozen barrels of the completed product can be found within. Nomen Burial Mounds (CR 8; Standard) A number of 8-foot-high mounds of loose stone, arranged in a strange spiraling pattern with each mound connected to the ones to the left and right by a 3-foot high wall of stones, are located here. The water is actually fairly safe to drink but tastes horrible and requires a DC 10 Fortitude save to avoid being sickened for 10 minutes. A DC 20 Perception check made while searching the pool's depths reveals a 5-foot-wide tunnel that leads south— this flooded tunnel connects to the well in area L27. Making matters worse, the air in this chamber is hideously noxious. A bronze double door opens in one wall and a passage exits through another. Today, the shipbuilding and repair happens in Orlov, and the few who remain in Franax live amid a frenzied struggle for control between Niath Koyra, a fisherman of some repute and coin, and the druids of the Glacircle, who wish to convert all to the worship of an elemental power embedded within the tundra and the Icewall. He turned back to face us with the mask in place. Great cyclopes, however, often inadvertently serve as the unifying force of such cults, their great strength and ferocity lending an air of supernatural power to the cult's workings. Atop this hill stands the hewn-log stockade and blockhouse built for the colony's defense—the seat of Varnhold's lord governor, Maegar Varn. The "Adoration of the Eye" is terrible but short, as the one-eyed titan makes quick work of its feast, rending limbs as it tears the frail flesh from its towering altar, devours the screaming thing, and—swiftly growing bored—wanders back to its den or off upon other depredations. They did name no fewer than a twelvecount of their hero-knights who had left their bones upon its rocky shores over the years after having tested their mettle against its dread warden, 'til none would any longer go there for fear of its hidden terrors. The spriggan in area L25 closes and bars the door and retreats to area L26, where she is joined by the spriggans from L28; together they defend the door. A faint path in the mud is actually the remnants of the passage of three creatures over the past several weeks— Willas Gundarson, the undead cyclops that wandered out of the crypt down to area X, and the centaur Kamanthe. spreads, their kingdom gains 1d6 nexing arnhold points of Unrest per soul they've With the rescue of 40-odd citizens of sold. Hroran: Once a vibrant logging camp that used the fast waters of the Noyrus to send timber down to the growing Kridorn, Hroran is now a ghost town, its buildings and roads all overgrown by the forest and its animals, which were quick to reclaim it. However, the people living there are hundreds of individuals seeking their own paths and goals, not a singular community. A character who touches a soul jar can communicate telepathically with the soul trapped inside—by breaking or opening a soul jar, the jar becomes nonmagical and disgorges its trapped soul in a plume of smoke, reforming into the trapped victim's body physically in the same condition he or she was in when he was captured. "So much for keeping a low profile," Phargas muttered. A description or copy of these frescos can serve to satisfy Tamerak Elenark's request This wide chamber appears to have been naturally formed; its for such information (see inside back cover). With a modest effort, I joined him and looked out over the party that reigned below us. Tailor.....Page 25 L12.
